# Who We Are

*Founded in 1992*, Rocky Mountain Human Services is a nonprofit organization that empowers people with the resources they need to thrive, and to live the lives they envision in their communities of choice.

With a staff of nearly 500 talented and dedicated employees, we support more than 15,000 Colorado residents through case management and direct service programs.

RMHS provides personalized case management and services for:

- Children and adults with intellectual and developmental disabilities and their families.
- Military Veterans who are experiencing or at risk of homelessness.
- People transitioning from a mental health institute, psychiatric hospital or substance use treatment facility to a community setting.
- Children and adults in need of long term care.

*“My daughter has been receiving services and support through RMHS for a year and a half. I am so grateful for the help and direction the providers and service coordinators have provided. They pointed us in the right direction regarding which services to focus on, and helped lead us toward a diagnosis for our daughter. She would not be where she is today without RMHS. Our family will be forever grateful.”*

*“Respite funding has really opened a lot of doors for us mentally and spiritually. With our family thousands of miles away, we don’t have anyone in the area to support us, so [respite] has truly given us a lifeline. We know when we take care of ourselves, we can in turn take care of others with a much clearer lens.”*

*“I was surprised at the professionalism and cordiality of the entire staff at RMHS Colorado Springs. They were patient with me (and others) and clearly explained answers to any questions that I had ... I am sure glad that they are available to veterans looking for a hand-up during tough times.”*
